Reasons for Allowance

Applicants' response to the last Office Action, filed August 24, 2004 has been entered and made of record.

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 16-18 are allowable over the prior art of record. Claims 2-5, 7-15, 19-21 and 23-30 depend from claims 1 and 18 respectively, therefore, are allowed.

Independent claims 1, 16-18 recite the limitations of : separately encoding each region of the panoramic video frames, wherein encoding the frame regions of the panoramic video comprises creating at least one data file comprising the data associated with each frame region of each frame of the panoramic video and an indicator append to the data of each frame region that identifies its corresponding panoramic video frame and its location within that frame. The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

The closest reference of US 6081551 to Etoh discloses a method of encoding images with a template panoramic image to define the position of images compressed. However, he does not teach the limitations of cited above.

Art Unit: 2623

In view of the amended claims and the Applicant's arguments, the rejections to claims 1-5, 7-21, and 23-30 are expressly withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
